

BULBUL SAINI

Full Stack Developer | Java, JavaScript, React.js, Node.js, MySQL

Email: since2008bulbul@gmail.com | Mobile: 8112218432 | Ajmer, Rajasthan, India

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying web applications using Java, JavaScript, React.js, Node.js, and MySQL. Skilled in object-oriented programming, database design, and end-to-end application development. Experienced in real-time systems monitoring through a SCADA internship, with strong problem-solving ability and attention to detail. Seeking a Full Stack Developer role to apply software development and web development skills to production systems.

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript, Python, C, SQL
- Frontend Development: HTML5, CSS3, React.js, Responsive Web Design
- Backend Development: Node.js, Object-Oriented Programming (OOP), Multi-threaded Programming
- Database Management: MySQL, Database Design, Data Handling
- Tools & Version Control: Git, GitHub

WORK EXPERIENCE

Java Development Intern | Birla Institute of Science and Research, Jaipur 05/2024 - 07/2024

- Strengthened Java fundamentals with focus on Object-Oriented Programming (OOP) concepts, including inheritance, polymorphism, and encapsulation.
- Implemented Java Collections Framework (Lists, Sets, Maps, Queues) to handle and process application data efficiently.
- Developed multi-threaded Java applications using synchronization techniques and concurrent programming for improved performance.

SCADA Systems Intern | Rajasthan Urban Infrastructure Development Project 45-Day Program

- Operated and monitored SCADA systems for urban water and sewer infrastructure across the project site.
- Performed real-time system monitoring, fault detection, and alarm handling to support infrastructure reliability.
- Completed a paid internship with a monthly stipend of INR 24,000.

PROJECTS

VIP URL Shortener

- Developed a full stack URL shortening platform using HTML, CSS, and JavaScript for the frontend and Node.js with MySQL for the backend.
- Designed and implemented efficient URL redirection logic and database storage for shortened links.

Amazon Clone

- Built a responsive e-commerce user interface inspired by the Amazon homepage using HTML5 and CSS3.
- Applied Flexbox and CSS Grid layout techniques to ensure responsiveness across screen sizes.

Movie Ticket Booking System

- Developed a Java-based console application to simulate a cinema booking system.
- Implemented movie listings, showtime scheduling, and seat availability tracking using Object-Oriented Programming (OOP) principles for a scalable design.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering | Government Women Engineering College, Ajmer 2022 - 2026

- CGPA: 8.02

Class XII, RBSE (Physics, Chemistry, Mathematics) | Aryan International Academy 2021

- Percentage: 92.2%

CERTIFICATIONS

- LinkedIn Learning Certifications
- Coursera Certifications
